Electronic Records Updates

10/1/2025

On September 15, 2025, New Jersey's Division of Medical Assistance and Health adopted new regulations which list the features a provider's e-signature software should, at a minimum, include: (1) encryption; (2) individuals passwords; (3) password-protected access; (4) verification of user signature; and (5) the transmission of data must be in an electrically protected format from the user to the 3rd party. Additionally, acceptable e-signatures may include date and timestamps and include printed statements indicating that the document was signed electrically.
