

New Jersey May Enter the Women's Reproductive Health Care Compact

A woman with long dark hair, wearing a white lab coat, is looking down at a binder with several white papers. The binder is on a desk, and there is a potted plant in the background. The image is part of a promotional graphic for Brach Eichler LLC.

[Assembly Bill 5305](#), introduced in the New Jersey General Assembly IN March 2023, would enter New Jersey into the Women's Reproductive Health Care Compact, which requires member states to collaborate to prevent extradition or investigation of individuals or entities involved in providing or receiving reproductive health care services for women. The Bill would also mandate avoidance of record disclosure, negative licensing actions, malpractice insurance increases, and data collection on certain aspects of women seeking out-of-state reproductive health care services.
