He has represented seriously injured clients in New Jersey, New York, Pennsylvania, North Carolina, Michigan, West Virginia, Florida, Massachusetts, Virginia, and Delaware. Known for his fierce cross-examination of medical witnesses and artistic presentations of his cases, Edward lectures across the country on trial techniques and the concept of proximate cause.

Edward is the author of The Domino Theory and The Domino Theory Second Edition, both Trial Guides publications in which he explains proximate cause and shows other attorneys how to successfully present any case to a jury. In his popular YouTube video, "Capozzi Causation Dominos," Edward demonstrates, step-by-step, how to set up each element from discovery to settlement to opening statement to arguing damages in closing – when you
